1

Check your trade and reserve.

Pick a neighborhood, check that your trade is open, then choose your size and your months. It takes a few minutes, and you pay once, securely, for every month you pick.

2

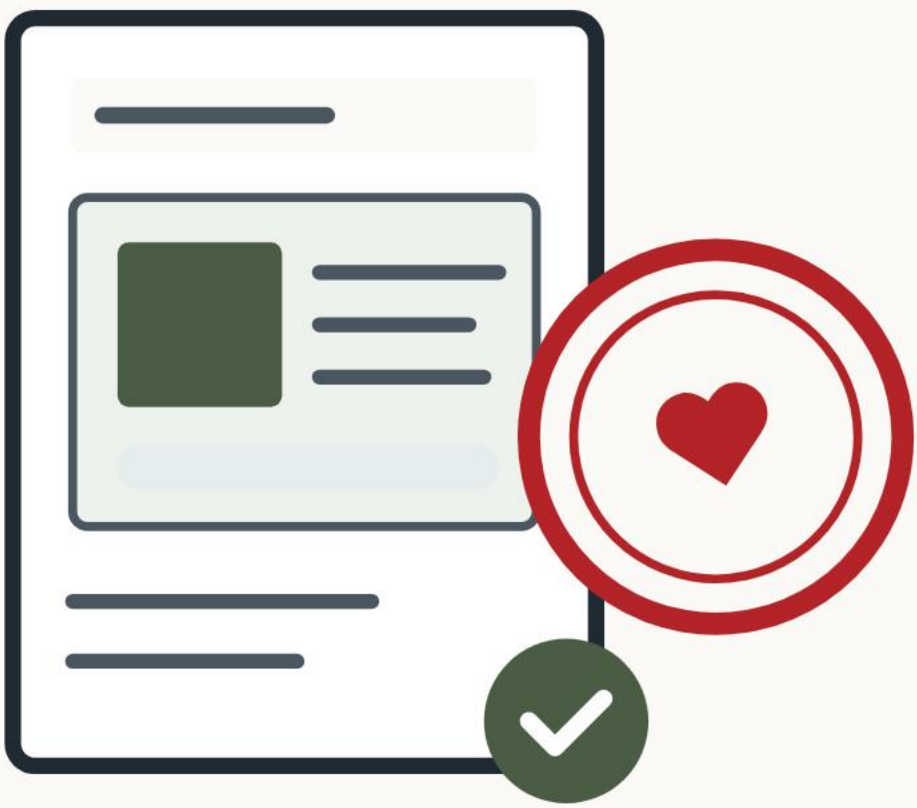

Choose how your ad gets made.

We'd love to design it for you, free: young designers at The Missing Pixel Project, mentored by award-winning pros. Or send your own art. If you already have an artist or an agency you trust, keep them. We're not here to take that work.

3

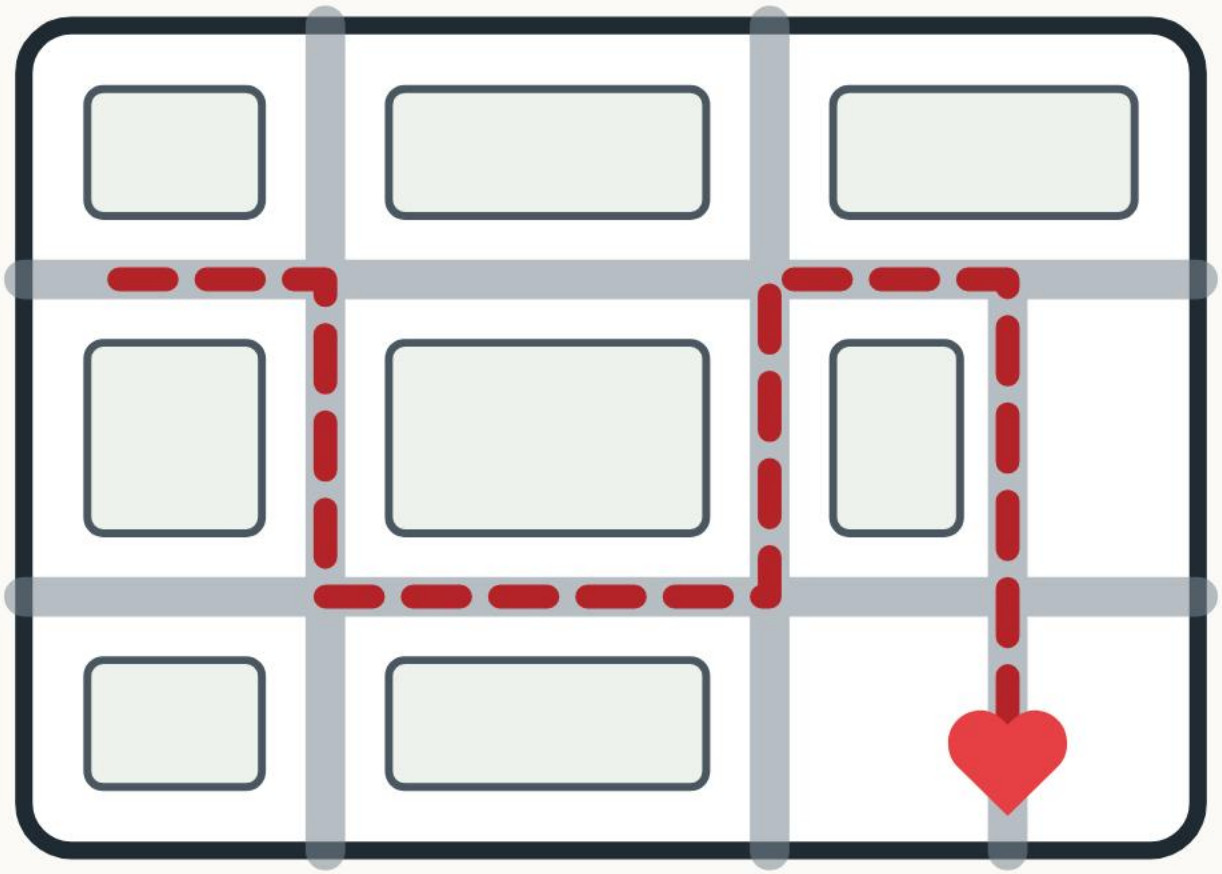

Approve your final ad artwork.

You see your ad before anything prints. You choose every word, or approve every word we suggest. No design goes out without an award-winning designer's approval, and nothing prints without your yes.

4

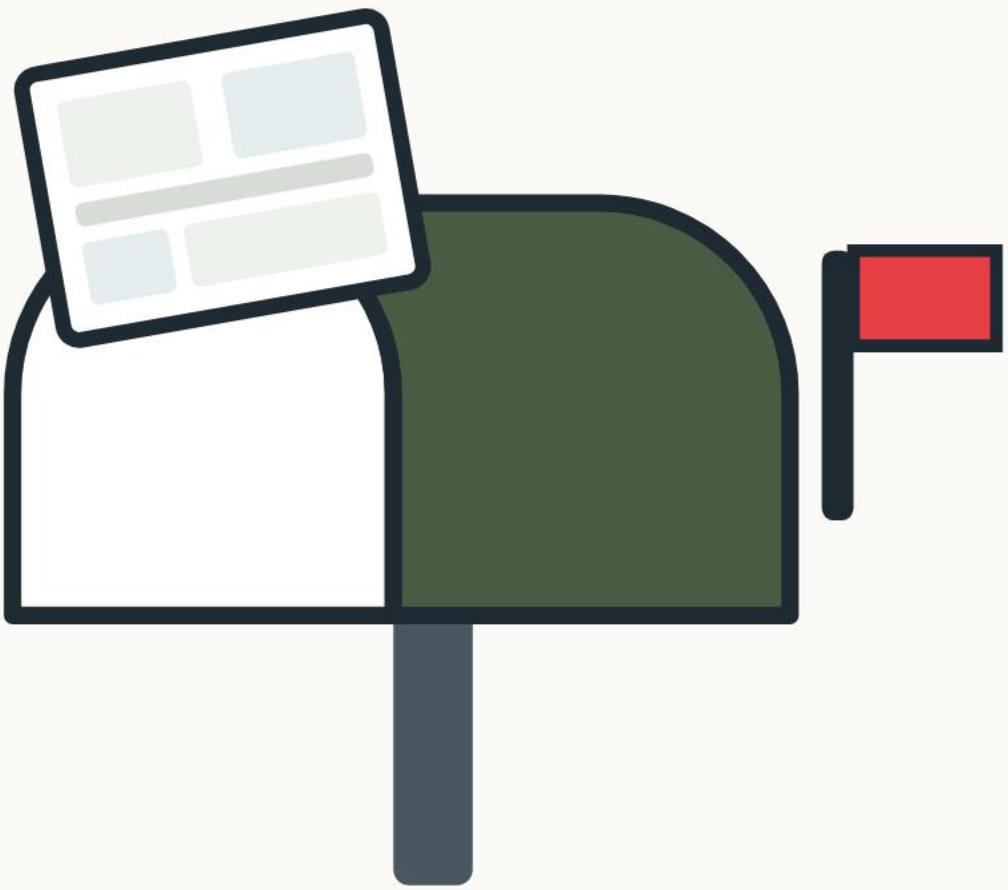

We print it and mail it.

Our print partner, Printing4SuperCheap, prints the card, and the U.S. Postal Service carries it to every mailbox on the neighborhood's routes.

5

A printed copy comes to you.

We always print extra cards, so we'll mail you a printed copy within two weeks of the card's in-mailbox date.
